E-mail: info@faracongressi.it

Web: www.faracongressi.it

On behalf of the Italian Society of Dermatology and Sexually Transmitted Diseases (SIDEMaST), we are delighted to invite you to the **XXXVII Italian Meeting of Cutaneous Histopathology**, official annual meeting of the Italian Society of Dermatopathology (AIDEPAT) to be held in Turin, from March 21st-23rd, 2012.

The meeting is entitled **“dermatopathology for the different medical specialties”** and will be devoted to the essential role of Dermatopathology in relation to other specialties of Medicine, e.g., dermatopathology and haematology, dermatopathology and rheumatology, dermatopathology and endocrine/metabolic disease, dermatopathology and infectious disease, dermatopathology and genetics and molecular biology, dermatopathology and gastroenterology, dermatopathology and oncology (melanoma, lymphoma, NMSC, soft tissue tumours).

An interactive session of free communications selected from the most challenging cases will be managed by young dermatopathologists, pathologists and dermatologists.

The Italian Meeting of Dermatopathology will also include some humanistic, historical, and artistic facets. From this point of view, Turin offers an outstanding opportunity to enjoy history, art, cinema, technology and design, not to mention the Piedmont cuisine.

Official language is English. Italian speaking persons who prefer give their talk in Italian, should at least provide an English written power point presentation.

We look forward to welcoming you to Turin for what we are sure will be a memorable Dermatopathology event!

Maria Grazia Bernengo, M.D.

Chair of Dermatology
and President of the Meeting
University of Turin - Italy

Giovanni Borroni, M.D.

President of the
Italian Society of
Dermatopathology

Carlo Tomasini, M.D.

Secretary of the
Italian Society of
Dermatopathology

WEDNESDAY MARCH 21st, 2012

11.30 am • 1 pm

REGISTRATION

2 • 6 pm

***La raison d'être* of the XXXVII Meeting
of the Italian Association of Dermatopathology**
Giovanni Borroni

Dermatopathology, gastroenterology and infectious diseases

- **Dermatopathology and Intestinal Diseases**
Raffaele Gianotti
- **Diagnostic challenges of infectious skin diseases**
Pietro Donati
- **Clinicopathologic findings of HIV+/AIDS-related skin disorders**
Sergio Delmonte
- **Update on cutaneous borreliosis**
Bernhard Zelger
- **PCR detection of *Leishmania* in granulomatous dermatitides
not otherwise specified**
Anna Maria Barbui, Carlo Tomasini

Coffee break

Dermatopathology, rheumatology and endocrinology

- **Chameleon of cutaneous lupus erythematoses in rheumatology**
Bernhard Zelger
- **Cutaneous neuroendocrine tumors and related syndromes**
Carlo Cota
- **Diabetes and the skin**
Giorgio Filosa
- **Moderate to severe psoriasis: clinico-pathologic
and immunologic correlations**
Pietro Quaglino

Special Lecture

Fuzzy logic in Western and Eastern science
Lorenzo Magnani (Department of Philosophy, University of Pavia)

7.30 pm

Welcome Cocktail

**THURSDAY MARCH 22nd, 2012**

8.30 am • 1 pm

Dermatopathology and its capability to produce new hypotheses

- **Non-infectious granulomatous diseases of the skin and autoimmune thyroiditis: a possible role for the fibrocytes**
Angelo Cassisa
- **Lipophagic panniculitis in re-excision specimens: a post-surgical model of idiopathic lipogranulomatosis subcutanea and Weber-Christian Syndrome?**
Giovanni Borroni
- **New entities in soft tissue tumor dermatopathology**
Maria Lentini
- **Prognosis: A fourfold delusion**
Francois Milette
- **Lymphostasis: an under recognized pathogenic factor in skin disease**
John Andrew Carlson
- **IgE Pemphigoid: possible significance and immuno-histopathologic correlations**
Camilla Vassallo
- **HPV infection and genital lichen sclerosis: is this cutaneous counterpart of chronic viral hepatitis induced cirrhosis?**
John Andrew Carlson
- **Pseudoxanthoma elasticum-like papillary dermal elastolysis: an underestimated rather than a rare disease**
Franco Rongioletti

*Coffee break***Dermatopathology and Genetics**

- **The diagnosis of genetic cardiovascular diseases with cutaneous involvement: Dermatopathological and ultrastructural clues**
Eloisa Arbustini

- **Histopathologic spectrum of familial glomovenous malformations**
Giovanni Borroni
- **Update to the diagnosis of Epidermal Nevus: genetic, dermatopathologic, and clinical correlations**
Gian Luca Tadini
- **Palmoplantar keratodermas**
Beatrice Passarini, Salvatore Infusino
- **Acquired aquagenic keratoderma**
Carlo Tomasini, Franco Rongioletti

1 • 2 pm Lunch

2 • 6 pm **Focus on: Haemathology, Lymphomas and Skin**

- **Mycosis fungoides and other cutaneous T-cell lymphomas**
Emilio Francesco Berti
- **Follicular B-cell lymphomas and other CBCL**
Marco Paulli
- **Micro-arrays and next generation sequences in haematology**
Emilio Francesco Berti
- **Blastic plasmacytoid dendritic cell neoplasm: The cutaneous "sanctuary"**
Nicola Pimpinelli
- **CTCL with CD3 negative atypical circulating T lymphocytes: diagnostic difficulties**
Mauro Novelli
- **Current classification of plasma cell neoplasms**
Achille Pich
- **Clinicopathologic skin clues of monoclonal gammopathies. An update**
Carlo Tomasini
- **Dermatopathology approach to skin signs of haematologic malignancies**
Aviv Barzilai

Coffee break

“Memorable cases” from:

- Graz
- Turin
- Genoa
- Rome
- Milan
- Pavia

FRIDAY MARCH 23rd, 2012

8.30 am • 12.30 pm

Focus on: Melanocytic neoplasms

- **Eye melanoma: Clinical and Instrumental diagnosis**
Elena Antoniazzi
- **Primary acquired melanosis (PAM) of the conjunctiva is melanoma in situ**
Francois Milette
- **Mucosal melanomas**
Daniela Massi
- **Morphologic-genetic correlation in atypical melanocytic tumors**
Lorenzo Cerroni
- **Consensus diagnosis versus molecular diagnosis in morphologically equivocal melanocytic skin neoplasms**
Gerardo Ferrara
- **AJCC staging of primary cutaneous melanoma: a critical reappraisal**
Wolfgang Weyers

Coffee break

- **FOXP3 and melanoma: the big escape**
Pietro Quaglino
- **Nail melanoma: A twenty year’s experience**
Pier Alessandro Fanti, Cosimo Misciali

- **Atypical Spitz nevus**
Giorgio Annessi
- **Histological diagnosis of melanocytic lesions: update and controversies**
Stefano Simonetti
- **Nevi on special sites**
Franco Rongioletti
- **Ambiguous “blue” melanocytic tumors**
Carmelo Urso
- **The wolf in sheep’s clothing. Distinguishing blue nevus-like metastasis of melanoma from conventional blue nevus**
Carlo Tomasini

A.B. Ackerman Special Lecture

- **Epistemology and Medical Reasoning: Abduction, Multimodality, and Creativity**
Lorenzo Magnani (Department of Philosophy, University of Pavia)

1.30 • 2.15 pm

Break

2.15 • 2.30 pm

Retronychias: a histopathological study of a new condition
Giuseppe Cannata, Elena De Col

2.30 • 5.30 pm

“Residents’ Corner” and Free communications session

When the microscopy makes clear the clinical picture and when the clinical picture makes clear the histopathology. The most challenging and instructive cases.

5.30 pm

Closing remarks

Faculty

Giorgio Annessi	Rome - Italy	Salvatore Infusino	Bologna - Italy

Scientific Information

- **Oral communication**

Time allowed: no more than 6 minutes each communication plus 2 minutes for discussion. The case can be illustrated by firstly showing the clinical pictures and then the histopathology or, alternatively, starting from the histopathology followed by the clinical picture. Diagnosis should emphasize the importance of clinicopathologic correlation. Each slide of the Power Point should have english written text (see example: format 1 and format 2 at www.dermatopatologiatorino.it).

- **Poster**

The permitted poster size is: 70x100 cm. The posting in the meeting hall will be allowed from March 21th, 2012.

- **Slides centre**

The PPS presentation should be delivered the morning or afternoon previous to your own session.

Abstract deliver

The deadline to submit late-breaking abstracts is: **February 29th, 2012**.

The forms to complete the communications/posters/scheduled speeches Abstracts should be downloaded from the appropriate section on the meeting website: www.dermatopatologiatorino.it saved with the name of the first author, submitted (following instructions meticulously) and sent to the following e-mail address: info@faracongressi.it.

Only in e-mail form Abstract will be accepted.

Authors are kindly requested to state the type of the presentation (communication, poster).

The acceptance in the form of oral communication or poster will be communicated by e-mail to all authors (first author) by March 5th, 2012.

Registration Information

You may register and get the most up-to-date information:

- online by visiting the website address:
<http://www.dermatopatologiatorino.it/iscrizione.html>
- online by visiting the website address:
<http://www.faracongressi.it>

Please pay by bank transfer in favour of **FARA CONGRESSI S.r.l.**, listing your name and the Event:

Cin G, ABI 01005, CAB 01013, c/c 000000002300 (Banca BNL)
IBAN IT23G0100501013000000002300.

Registration Fees (ECM Event n. 800-24087)

- **Specialists/Consultants:**

- Dermatologists, Oncologists, Pathologists, Genetists, Microbiologists, Plastic Surgeons
 - Biologists
- Euro 150,00 + 21% VAT = Euro 181,50

- **AIDEPAT Members**

Euro 75,00 + 21% VAT = Euro 90,75

- **Residents:**

No charge (Certification required)

- Fees include:**
- Access to scientific sessions
 - Conference kits
 - Materials
 - Lunch

Cancellations

Please inform the Organizing Secretary in writing by secretariat **March 5th, 2012.**
